

K DRIVE

Performance-focused heavy-duty vehicle customisation.

K Drive Custom Fleet Solutions is a proudly Australian-owned and operated vehicle bodybuilder based in WA and NSW.

We build tough, reliable vehicles that are ready for work. Everything happens under one roof, our team plans, designs, engineers, builds and installs in-house, saving customers time and keeping quality consistent from start to finish.

K-CRAFT BULLBARS

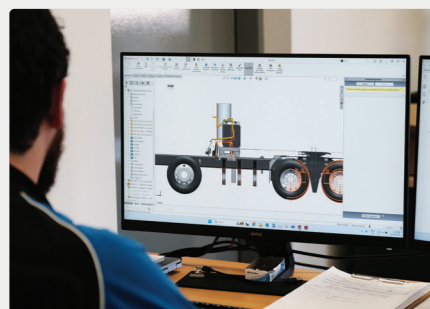

K Drive acquired K-Craft Bullbars in 2023, adding more than 50 years of experience to our team.

K-Craft has long supplied Western Australia's trucking, logistics and mining industries with bullbars built tough for safety and strength. Today, we continue to evolve those designs to suit new equipment, integrate new technology and apply new ideas, all with one goal. Forging the toughest protection for Australia's prime movers.

OUR PROCESS

At K Drive we live and breathe heavy-vehicle fitouts. We're not salesmen, we're builders, engineers and problem solvers who adapt to the demands of every job.

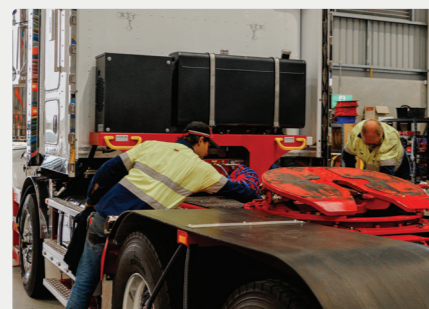

Design & Drafting

Our design team works side by side with customers, turning ideas into smart, practical solutions that balance function and finish.

Fabrication & Finish

Using proven techniques and quality materials, we fabricate and refine every component in-house, building gear that lasts.

Installation

Our team fits it all together with care and precision, making sure each part works seamlessly with the vehicle from day one.

KDRIVE

“ BECAUSE EVERYTHING HAPPENS UNDER ONE ROOF, VEHICLES AVOID UNNECESSARY TRAVEL, ADMIN IS REDUCED, AND CUSTOMERS DEAL WITH ONE TEAM FROM START TO FINISH.

HYDRAULICS

Hydraulic solutions built for tough environments

K Drive design and install hydraulic systems that match each customer's needs from start to finish, design, fabrication, installation and testing.

With a focus on smart engineering and hands-on reliability, every system is built to perform, last, and handle demanding conditions without compromise.

BULLBARS

Made durable for strength, reliability and style

Through our K-Craft product line, K Drive offers one of the strongest bullbar ranges in the country, from compact metro trucks to heavy-duty prime movers. Built for the toughest conditions, each bar is finished for function and appearance, delivering reliable protection across roads and industries.

VARIETY OF FINISHES

AUTO ELECTRICAL

Installed by experienced hands, tailored to your vehicle

K Drive delivers auto electrical services built on quality and reliability. We design and install custom wiring looms, integrate lighting, control systems and auxiliary gear, and simplify maintenance with fault-reducing solutions. Backed by real experience with heavy vehicles in harsh conditions, our team makes sure every job works from day one.
